GEARTH FloorShield 15

Eco-Friendly Sealing & Glazing Liquid Floor Polish | 15% Solids

Type: Eco-friendly sealing and glazing liquid floor polish	**Solids Content:** 15%	**Function:** Seals and glazes in one product

GEARTH FloorShield 15 is an eco-friendly sealing and glazing liquid floor polish with a 15% solids content. It both seals the floor substrate and builds a glazed protective film, giving a uniform gloss finish that resists scuffing and everyday traffic wear.

The 15% grade is the general-purpose specification for routine maintenance coats and for floors under light to moderate traffic, where a thinner build per coat and faster drying are preferred. For heavy traffic and higher gloss build, specify GEARTH FloorShield 25.

1 KEY FEATURES & BENEFITS

- Seals and glazes in a single product — no separate sealer coat required
- 15% solids for a controlled film build and faster drying between coats
- Uniform gloss finish across the treated area
- Protects the substrate from traffic wear, scuffing and spot staining
- Simplifies routine maintenance — mop-cleanable finish
- Eco-friendly formulation for facilities reducing their chemical footprint
- Locally manufactured

2 SUITABLE SUBSTRATES

- Sealed and unsealed concrete floors
- Vinyl and resilient sheet flooring
- Terrazzo and terracotta
- Sealed porous tile

3 DIRECTIONS FOR USE

- Step 1 — Prepare: Strip old polish where required and clean the floor thoroughly with a GEARTH bio-enzyme floor cleaner. Rinse and allow to dry completely.
- Step 2 — Apply: Apply thin, even coats with a clean applicator or flat mop, working in one direction.
- Step 3 — Dry: Allow each coat to dry fully before applying the next.
- Step 4 — Build: Apply two to four coats depending on the substrate porosity and the gloss level required.
- Step 5 — Cure: Keep traffic off the floor until the final coat has cured.

4 STORAGE & SHELF LIFE

Shelf Life	Stable for 12 months
Storage Conditions	Store sealed at ambient temperature out of direct sunlight. Do not allow to freeze.

This Technical Data Sheet reflects GEARTH's current product specification and application guidance at the date of issue. GEARTH (Pty) Ltd continually develops its formulations and reserves the right to revise specifications without prior notice. Because site conditions, substrates and effluent loads vary, the user remains responsible for confirming suitability for a specific application — GEARTH technical staff are available to assist with site-specific dosing and trial protocols. Handle all products in

accordance with the applicable Safety Data Sheet and South African health, safety and environmental legislation.
