GEARTH PureWash Powder

High-Foaming Hand Washing Laundry Powder | Concentrated & Phosphate Free

Type: Concentrated high-foaming laundry powder for manual hand washing	**Water Compatibility:** Suitable for hard water environments	**Composition:** Phosphate free, readily biodegradable components

GEARTH PureWash Powder is a high-performance, extra-foaming laundry powder formulated specifically for manual hand washing. It is built to be gentler on the skin while remaining tough on stains, and its concentrated formula delivers a low cost in use per wash.

The formulation is phosphate free and built from renewable, eco-grade components that break down readily and harmlessly, making it safe for septic systems and for effluent discharged to reed beds and municipal reticulation.

1 KEY FEATURES & BENEFITS

- High-foaming action suited to hand washing and soaking
- Formulated to be gentler on the skin during prolonged hand contact
- Excellent stain removal across common household and workwear soiling
- Concentrated, economical formula for a low cost per wash
- Effective in hard water environments
- Phosphate free
- Formulated from renewable eco-grade components that are readily biodegradable
- Safe for septic systems and downstream biological treatment

2 DIRECTIONS FOR USE

- Step 1 — Dose: Add one scoop for a lightly soiled load, increasing the dose for heavier soiling.
- Step 2 — Dissolve: Mix rapidly by hand into the water to create a rich foam, ensuring the powder is fully dissolved.
- Step 3 — Soak: Soak the laundry for one hour to lift dirt and loosen stains.
- Step 4 — Wash and rinse: Wash as normal and rinse well.
- Step 5 — Dry: Hang to dry in a well-ventilated space.

3 TOUGH STAIN REMOVAL PROTOCOL

- Step 1 — Pretreat immediately: Mix the powder with cold water to form a paste as soon as the stain occurs.
- Step 2 — Work in: Scrub the paste into the stain and allow it to stand for one hour.
- Step 3 — Soak: Soak overnight with sufficient product in very hot water.
- Step 4 — Wash: Wash as normal the following day.
- Step 5 — Repeat if required: Do not tumble dry or iron while the stain is still present — repeat the protocol first.

4 STORAGE & SHELF LIFE

Shelf Life	Stable for 24 months
Storage Conditions	Store sealed in a cool, dry place out of direct sunlight. Keep dry to prevent caking.

This Technical Data Sheet reflects GEARTH's current product specification and application guidance at the date of issue. GEARTH (Pty) Ltd continually develops its formulations and reserves the right to revise specifications without prior notice. Because site conditions, substrates and effluent loads vary, the user remains responsible for confirming suitability for a specific application — GEARTH technical staff are available to assist with site-specific dosing and trial protocols. Handle all products in accordance with the applicable Safety Data Sheet and South African health, safety and environmental legislation.
